DETAILED ACTION

Response to Request for Continued Examination(RCE)

1. This action is issued in response to applicant's Request for Continued Examination(RCE)(Paper #9) filed 4/9/03.
2. Applicant filed an IDS(Paper #10) delineating certain mathematical algorithms for the Banksys Signature Transport(BST) Protocol related to the underlying mathematical foundations embodied in the instant application which were reviewed by Examiner.
3. Claims 1-22 as originally filed are still pending.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant has not provided the actual mathematical derivation of the algorithm, nor the assumptions or limitations of the formulations. Only descriptive discussion was furnished, which is inadequate to establish the correctness of the equations or the invention's novelty as submitted.
6. Claims 1-22 are further rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, and essential steps such omission amounting to a gap

between the elements. See MPEP § 2172.01. The omitted elements are: the mathematical calculation of tables, results, iterative applications of transformation functions, programming methodologies, inverse authentication, calculation of base values, comparison and comparison methods used and supporting derivations.

Conclusion

7. THIS ACTION IS MADE NON-FINAL.
